

Blue Finn

The Blue Finn chair is a highly stackable, multifunctional chair with a plastic seat and back made from at least 85% recycled Bluewrap (wrappers for keeping medical instruments sterile).

Blue Finn

Specifications

- plastic back and seat made of at least 85% recycled Bluewrap
- 100% recyclable
- steel wire frame (12 mm) finished in a powder coating
- stackable (with the exception of bar stool medium and high)
- manufactured locally

Materials

- steel parts of frame epoxied; colours according to the "Epoxy and lacquer - Core collection" and "Epoxy and lacquer - Trend collection" colour cards
- wooden parts in clear lacquer or stained; colours according to the "Stain" colour card
- plastic parts: dark blue. Due to the recycled composition of Blue Finn, colour variations may occur per production batch. However, the back and seat of one chair are always the same shade.

Options

- plastic arm rests (anthracite)
- wooden arm rests (clear lacquer or colour stain)
- connector
- plastic glides
- anti-scratch glides

Quality standards

- wooden parts: sustainable certified PEFC wood
