

Wybelt

The Wybelt is a beautiful seating element with an equally beautiful story. The Wybelt is made of regenerate, which means that residual is used. The seating element can be recycled infinitely without loss of quality and this makes it 100% circular. The Wybelt can be used on both sides, so everyone can determine for themselves whether they want to wiggle or not.

Wybelt

Specifications

- seating height 45 cm
- diameter \varnothing 38 cm

Materials

- post-consumer plastic waste
